N/A - Insight Pro is an electronic subscription for cloud services

Product Descriptions

25-Word

The NETGEAR Insight Pro solution is a revolutionary new way to manage clients' networks of select NETGEAR Wi-Fi access points, switches and storage devices.

50-Word

The NETGEAR Insight Pro solution is a revolutionary new way to manage clients' networks of select NETGEAR Wi-Fi access points, switches and storage devices. Insight is an industry first – offering plug-and-play set up and management of multiple small business networks from a single account within our mobile app or Cloud Portal.

100-Word

The NETGEAR® Insight™ Pro solution is a revolutionary new way to very quickly discover, configure, and continuously monitor and manage clients' networks of select NETGEAR Wi-Fi access points, switches and storage devices. Insight is an industry first – offering plug-and-play set up and management of multiple small business networks from a single account within our mobile app or Cloud Portal. Insight changes the equation with its simplified multi-tenant, multi-users, multi-location configuration and cloud-based remote access, It empowers VARs and MSPs to manage their clients' devices from anywhere and develop "Management as a Service" solutions for recurring revenue.

Devices Managed

New devices are planned to be added under Insight management throughout 2018. In the release of Insight 5.0, it will support the following devices:

- WAC505 and WAC510
- Orbi Pro
- GC110, GC110P, GC510P, GC510PP, and GC728X and GC728XP, GC752X and GC752XP
- All ReadyNAS devices except the 100-series

Approved Category/Space Definitions

When referring to the "space" or category, the following is approved for all expected types of usage:

- Cloud services
- Electronic subscriptions
- Access point management
- Switch management
- NAS management
- Remote network management
