MYRIAD

## Enhanced HD Voice, Exceptional 360° Audio Tuning

### Enhanced HD Voice

The Myriad Series offers first-class HD audio performance with enhanced audio components and sound chamber design. Super wideband in handsfree mode delivers Symphonic HD Voice that takes audio experiences to the next level.

### 360° Audio Tuning

The Myriad Series features exceptional 360° audio tuning around the phone in handsfree mode. Together with super wideband technology and the full-duplex speakerphone, it makes the phone an excellent hands-free conference speaker for 3-4 people.

## Classic Elegant Design, Enhanced User Experience

The Myriad Series has an elegant, sleek industrial design inspired by the Eiffel Tower. The modern, intuitive user interface enables easy call management and quick access to up to 8 lines. It features large hard keys, vivid LED indicators and a 4-way navigator centered with the "OK" key for an enhanced user experience.

The M5 and M7 phones include colour displays, further boosting operation efficiency. In addition, the phones have the optional capability of faceplate customization to further improve brand presence.

## Advanced Connectivity (Audio Hub), Great Flexibility

The Myriad Series can connect to PC softphone calls through an integrated USB port, turning the deskphone into an Audio Hub. This turns the deskphone into a high-quality speakerphone that can stream audio in enhanced HD or a full duplex handsfree device.

The series also supports connection to external devices such as ALE expansion modules (EM20/EM200), Wi-Fi dongles, and wired or wireless Bluetooth headsets, allowing customers to best leverage the value of their phones.

The USB-C port can also be used to power deskphones like most smartphones on the market.

## Enterprise-grade Functionality, Seamless Platform integration

The Myriad Series offers enterprise-grade telephony features such as 8 line keys, 4 programmable soft keys, Gigabit support and 5-party local conferencing to better facilitate business efficiency and boost teamwork .

The standard SIP protocol offers seamless integration with major open SIP servers such as Asterisk, BroadSoft, Metaswitch, and Nfon.
